Home About Us Consultancy Training Auditing Contact Us

Welcome

At audax, we train professionals to improve their knowledge on ISO 22000:2005 Food Safety Management Systems throughout the whole range of courses, from introductory to IRCA certified Auditors / Lead Auditors courses.

In addition, audax assists organizations to enhance their understanding of HACCP principles, food hygiene, legal requirements and welfare concerns.

We also help food companies of every size to gain registration to ISO 22000:2005, ISO 9001:2000, BRC Standards, as well as to implement other Food Safety Management Systems including HACCP.

We offer a practical and comprehensive approach during the whole process of the implementation of your Food Safety Management Systems.

Our team of IRCA registered ISO 22000:2005 FSMS qualified auditors will take every step to facilitate the successful registration and implementation of the whole range of Food Safety Management Systems for your organization.
