VACUNAUT

A masculine sculpted six-pack or a slim feminine physique

VACUMASSAGE

Smooth and rejuvenated skin to go with your new slim line physique.

A natural and effective alternative to surgery

Offering immediate, non invasive and painless results HypoxiTherapy unquestionably offers a new opportunity for unwanted fat and cellulite to be a nightmare of the past.

Designed and patented by Austrian Sports Scientist Dr. Egger, HypoxiTherapy targets the problem zones of the stomach, waist, hips, buttocks and thighs through the unique simultaneous activity of vacuum suction and gentle exercise. Through Hypoxi's innovative and ground breaking technology, visible reduction of inches and the rejuvenation of problem zones can be seen after only two weeks.

HypoxiTherapy has scientifically proven to:

- Burn more fat than any other inch loss treatment (incl. exercise)

L250

Achieve slim line dimple free hips, thighs and buttocks lying down
